## Blueprint Reading Training | eLearning Course

Blueprint Lines - WXBP101-XX01XEN-E2

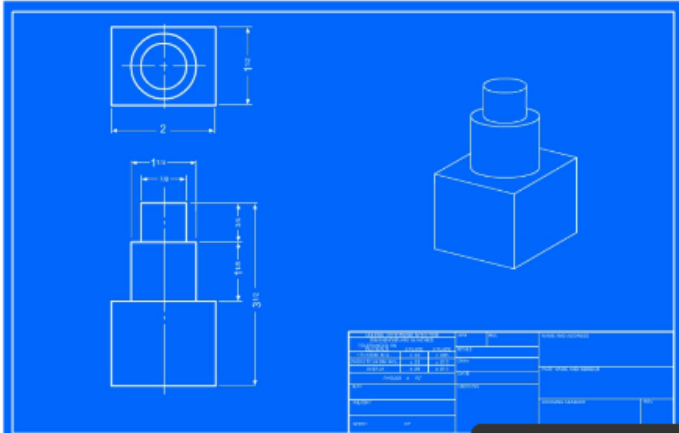

Objective 5: Define a Blueprint and Describe Common Sizes

Blueprints

Blueprints are copies of engineering drawings.

Blueprints are not blue anymore. The process used to create blueprints has changed with technology.

Most documents referred to as blueprints are now printed on white paper with black lines.

# eLearning Course: MXBP101

Amatrol's Blueprint Reading eLearning course (MXBP101) introduces reading and interpreting blueprints with a focus on reviewing common elements, the alphabet of lines, and the differences between types of drawings. This eLearning course also provides dimension definitions for height, width, and depth, and reviews dimension and geometric symbols and datums. It enhances the learner's math and geometry knowledge through practical application.
