PPE in the Workplace| Interactive eLearning

eLearning Course: MXSA102

Amatrol's Personal Protective Equipment eLearning (MXSA102) covers major topics like workplace PPE requirements and PPE protection for various body parts. This online PPE training course allows learners to study objectives like: identifying hazards in the workplace; PPE selection; how to use PPE equipment for the head, eyes, and ears; and PPE available for the hands, arms, feet, lungs, and body.

Teach Workplace Safety Skills

In-Depth, Comprehensive Personal Protective Equipment (PPE) Training Connected to Real-World Skills
Amatrol's online PPE training curriculum is unique in that it thoughtfully combines in-depth theoretical knowledge with practical, hands-on skills. This powerful combination of knowledge and skills solidifies understanding and creates a strong foundation for pursuing more advanced skills.

For example, the basic electrical eLearning course covers important topics, such as:

Workplace Personal Protective Equipment (PPE) Requirements
Within this segment, learners will study about the purpose and types of Personal Protective Equipment (PPE), an employer's PPE responsibilities, types of hazards in the workplace and how to identify them, and how to select and use PPE.

Interactive Multimedia

Highly-Interactive Multimedia Format Appeals to All Learning Styles
Amatrol's Safety eLearning course curriculum features a highly-interactive multimedia format. Stunning 3D animations, videos, pictures, voiceovers of all text, and interactive quizzes and exercises bring learning to life. Amatrol's multimedia curriculum contains elements that will appeal to every learning style, keeping learners motivated and engaged.
